The indicated rates of return for the RBC Managed Portfolios investment profiles are the historical annual compounded total returns for the periods after deduction of fees and charges in respect of the program. Fees are calculated based on a minimum account size of \$100,000, using the fee schedule in effect during the period. The rates of return for periods of less than one year are simple rates of return after deduction of fees and charges in respect of the program. The return is based on the total returns of the participating RBC Private Pools including changes in unit value and reinvestment of all distributions. The performance for each pool is based on the change in the net asset value of Series O units of the pool during the period. Please read the account agreement and supporting documents, and the prospectus of the participating pools before investing in the RBC Managed Portfolios program. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

The RBC Managed Portfolios program is managed by RBC Asset Management Inc. and distributed through Royal Mutual Funds Inc. Investors pay a monthly fee to Royal Mutual Funds Inc. based on the net asset value of the investor's account. A portion of the monthly fee is paid to RBC Asset Management Inc. No management fees are charged by RBC Asset Management Inc. to the RBC Private Pools in respect of the program and no sales charge or trailing commissions are payable by investors in connection with any purchases, redemptions or switches in the program.

RBC Global Asset Management (RBC GAM) comprises RBC Asset Management Inc., Phillips, Hager & North Investment Management Ltd. and RBC Global Asset Management (U.S.) Inc., which are separate legal entities owned by Royal Bank of Canada.
